Indians Predict Long, Hot Summer

Indians along the western foothills predict a long hot summer.

Indians in Rocky Mountain House who sell squirrel skins and other furs, say there will be some rain, but not as much as usual. The Indians also forecast fair crops, fair hay, an abundant crop of wild berries, good fishing and good hunting for big game in the fall. No snow can be expected until after October 15.

Asked how they predict the weather — they have been almost 100 per cent right about the weather the last two winters — one elderly Indian woman said she had been taught by her grandmother, who in turn had learned the weather signs from her grandmother.

She would not reveal what the signs were, but added with a grin, "White people might try it, if they knew what to look for."

LIGHT YOUR WAY WITH BIBLE STUDY

A poor, but pious valet in a large city, father of a large family, found himself in dire need. Rent, support to the family, some adventures had burdened him with considerable debts. A banker nearby engaged him as man-servant. In his duties, he was compelled to pass through the ante-room, where a large sum of money had been placed, evidently to test his honesty.

Slumbering in his bosom was the desire to filch the entire sum, thus to rid himself of care and worry. "Take it; no one sees you." Again and again this thought

SOUND ADVICE —

Vocational adviser to youth:

"Your vocational aptitude test indicates that your best opportunities lie in a field where your father holds an influential position."

arose in his heart. Bravely he resisted. Next day, the Tempter prompted: "Take it today, tomorrow it may be gone."

But his conscience reminded him "Thou shalt not steal." The third day, after spending the night wrestling in prayer, he cheerfully entered his employer's room and exclaimed: "Sir, I have prevailed." And then he gave a report of the harassing experiences of the past few days.

We also, in many ways, are constantly being tempted. For sin is within us, and around us. We may even see others do it, and seemingly get away with it. But we must heed the warning: "Watch, pray, learn to grow by means of the Word."

Turning to God at such times, imploring His help and strength, we shall also grow in our spiritual life and be enabled to observe Cantate Sunday, which we this year observe on May 19, with the song in our heart: "Oh, sing unto the Lord a new song, for He hath done marvelous things."

TREE PLANTING: We are now in the midst of planting around 50,000 trees on district farms. Anybody who has trees to plant will be anxious to get them into the ground. We are anxious too, to get the job done as soon as possible, but there is a limit to what can be done in a day.

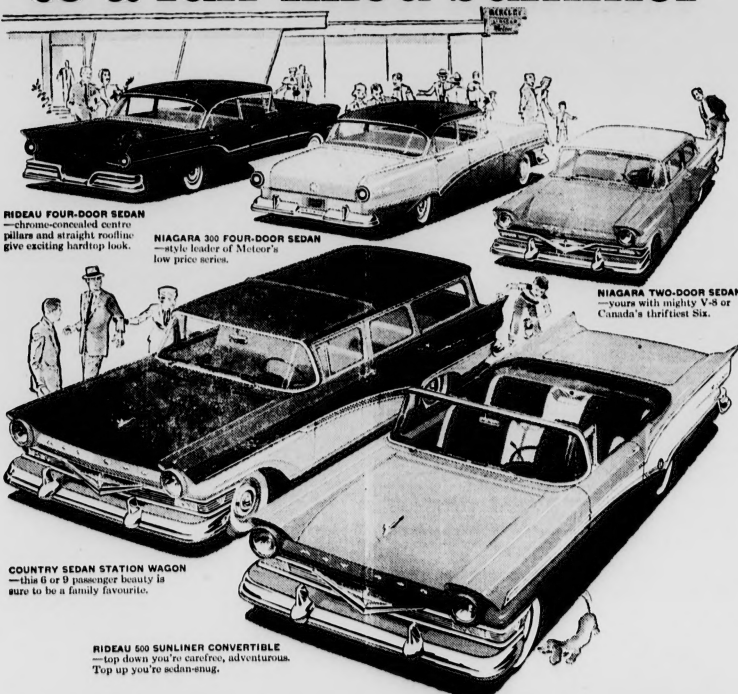

You who have put your word in for the tree planter, please be patient; we will get to you as soon as possible. In the meantime, if you have "heeled in" your trees, keep them moist with occasional watering. They will keep for several weeks if necessary if they are well heeled into the ground.

We are thoroughly convinced that trees are almost a "must" on the farms and roadsides of this country and increasing numbers of farmers are taking advantage of the service to get started in the tree planting program.

DO YOU KNOW THAT ???

1. Social Credit Governments of Alberta and B.C. are the only two Provincial Governments in Canada which last year paid Supplementary Allowances to recipients of Old Age Assistance?

2. During the Alberta Election of 1955 the President of the Alberta Liberal Association urged the voters of the Red Deer Constituency to vote for the President of the Alberta Progressive Conservative Association?

3. Although Old Age Pensions have not been increased since 1949 the Liberal Government now proposes to increase them by a meagre 20 cents per day and the province will have to pay half of the 20 cents?

4. Under a Progressive Conservative Government Ontario's Provincial debt increased from \$583 million in 1946 to \$964 million in 1955?

5. In the March 1957 budget the Liberal Government proposed to increase Family Allowances in some cases by a paltry 7 cents per day; in others by 3½ cents per day, and in others by NOTHING!

6. Alberta and B.C. under Social Credit Governments, are the only two Canadian Provinces in which gross debt-reduction have been reduced?

7. In the March, 1957 budget the Liberal government abolished sales taxes on candy, gum, chocolate and pop (tax imposed to fight Korean War in 1950) but left the tax on children's boots and shoes?

9. The average price paid to the Canadian farmer for his wheat is \$1.29 per bushel, even though parity is \$2.37?

10. Through individual income tax, corporation income tax, customs duties, sales and excise taxes, tariffs, etc., the Federal Liberal Government take almost twice as much per year from Albertans as it pays back to or spends in Alberta?

Just For The Record . . .

It's official now!! Doors will be opened on the fine new addition to the Didsbury hospital on Wednesday, May 29. We like to feel that we had a small part in making this most-necessary building possible. Hats off, please, to the many, many others who have worked so faithfully in the same direction. Dreams do come true sometimes.

Just For The Record . . .

We'd like to have a few unclarified points cleared up as regards the provincial government's controversial "22 smacker bonus" and the five-year driver licence deal. The way things have been explained so far, both propositions are about as clear as mud. Have those in charge gone on a holiday, or is it just that they are pondering on what to say next?

Just For The Record . . .

The first trial run is over as regards hours of business for most garage operators, implement dealers and repair shops within the confines of Didsbury. Notices have been placed in each of the spots adhering to the plan, telling customers just what to expect on Saturday afternoons. In case you missed it last week we'll give you a quick run-down: The garages will maintain a parts and gasoline service only on Saturday afternoons, up to 6 p.m., with one garage maintaining a staff for repair service during its week of rotation service. The implement dealers will remain open for parts service till 6 p.m. on Saturdays, and during seeding and harvest time till 9 p.m. Wednesdays, all concerned, will be open all day.

Just For The Record . . .

We have another famous quote: "It is not the load that breaks you down — it's the way you carry it!"

Blood Donor In New Role

Blood donors are now playing a new starring role in opening new worlds to a group of skilled surgeons and specialists performing miracle heart operations at the University hospital in Edmonton. Within the past few months 11 open-heart operations have been performed by this team of specialists and additional operations are scheduled at the rate of one each week to 10 days.

Such operations cannot be attempted without a large quantity of blood available in the operating room. The Red Cross with its army of volunteer donors is providing this blood. An average of 16 to 20 donors, sometimes more, is needed for each operation and, as only fresh blood can be used, donors are required at the Red Cross blood donor clinic in the early hours of the morning the day of the operation.

In addition to providing donors for these operations, the Red Cross blood transfusion service conducts the complex and tedious blood test required to assure that there is no incompatibility between the blood of the donor and that of the patient.

It is rarely possible for families of these heart patients to supply the large number of donors with correct blood types required in these operations. Relatives, and friends of these patients are therefore asked to attend Red Cross blood donor clinics in their districts and give blood which will be needed to save the life of some other patient.

The Red Cross is committed to supply blood free of charge to those needing it. They can only meet this obligation with the co-operation of generous donors and grateful recipients.

Hail Suppression Moving North

CAMROSE — A capacity crowd at Camrose recently heard three speakers discuss hail suppression. The meeting sponsored by the Camrose Chamber of Commerce and Agriculture, drew enthusiastic appreciation from district farm residents.

Dr. N. H. Garce of the Research Council of Alberta, said from the scientist's point of view there is a wide variation of opinions and a lack of scientific facts. But, said Dr. Garce, there may be something to it, and verification is the important thing.

Bill Connor, of the weather modification corporation, outlined the hail suppression program in Central Alberta last summer.

He stressed that the company guaranteed nothing but its best efforts to suppress hail, employing its technical knowledge and mechanical equipment. He stressed the aim is suppression, not elimination. The president of the Mountain View Hail Suppression Association, Tom Morris, described the experiences of farmers in the Didsbury-Three Hills area with hail and the experiments conducted last year in an attempt to reduce such losses. He said hail damage to crops as one of the factors causing young men to leave the farms of Central Alberta.

Spacious... gracious... advanced in every respect... and right at the zenith of fashion — that's the magnificent new Chrysler!

At the club... the golf links... the festive house parties... and all the other gay places this year, it's Chrysler the crowd is admiring and talking about.

For nothing quite like this slim, graceful, fashion-plate beauty has ever glided in beneath the smart porticos before. Nothing so tastefully styled. So luxuriously appointed. So smooth and powerful in action.

There's the superb Chrysler New Yorker with its splendid length... and its great 325-h.p. V-8 with 4-barrel carburetor. And there's the wonderful Windsor with its clean,

lovely lines and the exciting performance of up to 295 horsepower under the hood.

All Chryslers have the extraordinary convenience and flashing responsiveness of push-button Torque-Flite automatic drive. All have the new Torsion-Aire Suspension system that gives Chrysler its remarkable sports-car handling characteristics, as well as the smoothest ride on wheels. All have the roominess, comfort and safety Chrysler is famous for.

It's just kind of car, this long, low and luxurious Chrysler of 1957. And its cost is less than you may imagine. So let us demonstrate one to you soon. Just telephone. We'll bring a Chrysler to your door for the most revealing demonstration drive you've ever experienced.

"WORKING TOGETHER"

If you take a look at the town garbage team when it is in your lane, you will see that when they are standing, one always stands about half the length of himself ahead of the other. But when the team is moving, the other one always takes the lead, and their positions are reversed.

Whatever the reasons may be, we are not concerned about here. What we wish to draw attention to, is this. They could work together much better than they do, and with happier results, both for themselves and their driver.

Two boys went through public school together. They had both decided to go on to university. Jim had taken all the subjects required for entrance at the university. He had become an honor student in Latin. Jerry did not like Latin and neglected it. One day Jim overheard the principal say to Jerry that he would have to take another year in grade twelve. This bothered Jim. He just could not think of going to university if Jerry could not go. Jim finally went to Jerry and said:

"I want to help you." Jerry's reply was: "How can you help me?" Jim then said: "I want to go over the entire year's work in Latin with you." Jerry consented, and a certain time every day was set aside for the purpose. The result was that both boys went on to university. One is now a minister and the other a lawyer.

The N.A.R. train leaving Peace River and coming toward McEwen has a long hard hill to climb. The railway company always has a yard engine ready to help each eastbound train up that hill; passenger and freight trains are all treated alike. The yard engine is hitched to the regular engine with a cable about one hundred feet long, separating the engines, so the weight of both engines will not be on the bridge that crosses the Hart River at the same time. There is a switch at the top of the hill. The yard engine runs in on the switch, a man closes the switch. When the cable slackens, it frees the train from the regular engine. Thus the train goes on its way without delay and the yard engine goes down the hill to be ready to help the next eastbound train in the same manner.

Some places where conditions differ, one engine is used on the front and one at the rear of the train. Often these days the two engines are placed together at the front of their line of cars. In every case the engines work together. We each have work to do, and loads to push, pull or carry. When our efforts complement the efforts of others, we help them to accomplish their tasks and they help us to complete ours. We are co-workers, and when we are co-workers with the highest, life's best goals are reached.

In the home, in the school, government or church, it is the best team work that accomplishes the best things. Working together gets big jobs done that otherwise could not be done.

The more efficient the individuals, the more is gained by working together. Nevertheless, it is good to remember, that the working together by people of humble abilities, always ends in large and important accomplishments.

Shamur used the handle of an out-worn ox whip. Samson used the bone from the body of a dead mule. David used a sling, that any boy could make, plus a few small stones.

Don't blame your tools nor your ability, but use them, in co-operation with others who have similar

Notes From D.A.

By Howard J. Fisher

The five 4H beef clubs in this area will be holding their achievement day in June at Carstairs. There will be a total of 93 calves shown; these animals have been fed and fitted by the club members during the past six months.

The members will show these calves in individual competition, with the top two calves from each club competing for the grand and reserve championship ribbons of the show. Following a noon luncheon and presentation of awards, the calves will be offered for auction, this to commence at 2:00 p.m.

The success of these clubs is greatly due to the guidance they receive from their leaders. Following are the clubs, with leaders name in brackets:

Carstairs (Harold Schielke);
 Carleton Place (Vair Reid);
 East Didsbury (A. E. Brander);
 West Didsbury (Jim Hughes);
 Olds (L. S. Fisher).

This year there will also be a "pee wee" class, made up of boys and girls under 12 years of age. This class is sponsored by the five 4H beef clubs. Along with these men, others in the area have helped unselfishly to make the clubs a success.

I would like on behalf of these men, the club members and myself to cordially invite all persons interested to come out and see these calves as they are shown. The judging and placing will be done in the morning.

I am certain it will be found to be very interesting and educational to spectators as well as it is to the participants in this day's program.

CAUTIOUS CANDIDATE ! ! !
 A political candidate called on a minister to seek his vote at the coming election.

"Before I decide to give you my support," said the minister, "I would like to ask you a question."

"Shoot," said the candidate.

"Do you ever partake of intoxicating beverages?" the clergyman asked.

"Before I reply, I would like to propound a single question," said the would-be M.P. cautiously. Is this an inquiry or an invitation?"

tools and similar abilities, and great things will be accomplished.

"Two fool mules — now get this dope —"

Were tied together with a piece of rope.

Said one to the other, "You come my way."

While I take a nibble of this new mown hay."

"I won't," said the other. "You come with me."

For I have some hay, you see."

So they got nowhere; just pawed up dirt.

And believe me, how that rope did hurt."

"Then they faced about, those stubborn mules."

And said: "We are just like human fools."

Let's pull together. I'll go your way."

Then you come toward me, and we'll both eat hay."

DISTRICT NEWS

M.V.B.C. NEWS

(From Our Own Correspondent)

Mr. Richard Huron, director of music in the college, left for his home in Port Huron, Mich., last Thursday. He expects to be at home for a month before he enters a school of music for an intensive course during the summer months.

It was a great pleasure to have a graduate of the College in our midst again briefly for the Stauffer-Siemens wedding last Thursday. Mrs. Don Suder (Dorothy Stauffer) sang two very beautiful numbers at her brother's wedding and poured at the reception. She left for her home in Hamilton, Ont., the day following the wedding.

The wedding reception for the Stauffer-Siemens wedding was held in the college dining room on Thursday. Some 140 guests sat down to a luncheon. The bride's table was enhanced with a beautiful three-tier wedding cake. The table was arranged in the centre of the room, where the many guests helped themselves to the refreshments provided.

President Don Taylor was M.C. and did justice to the occasion as he reminisced from memory and imagination events pertaining to the lives of both Clarence and Wilma.

Mr. Waldin, Scoutmaster for Clarence, also recalled interesting events in the life of this young man and commended him greatly for the good work he did as a Scout.

Rev. Hackman of the Waterloo district spoke on behalf of the bride.

Clarence responded very graciously to the remarks that had been made. We extend to this young couple the best wishes and trust they will have many years of happiness together. They left for Ontario for their honeymoon.

Mrs. M. A. Finley of Edmonton stopped in Didsbury over the week end with her daughter and family. Mrs. D. M. Taylor, to celebrate Mother's Day with them. She had been on an extended tour to the west coast and is just now returning to Edmonton. On Sunday, both Mrs. Finley and Miss Gladys Eby were dinner guests of the Taylors.

On Monday several members of the faculty were guests at the Oke-Steeves wedding held in Champion. More will be said about this next week.

The lawns at the college will really be nice this year. Already Mr. Eby and Mr. Taylor have been cutting the fast growing grass and find that it is coming along nicely this spring. We hope that the treatment for dandelion will hold this year even better than last year, for little by little we are getting rid of this unsightly weed from the campus.

We regret that Mrs. Arthur Eby has had to undergo surgery in the local hospital. She will be there for a number of days.

Will Says

W. J. (Will) Edgar

We farmers have problems. We need to give them a long, hard look. What can we do about them? Agricultural policies are made in Ottawa by the party in power.

That's where we urgently need representation on the Government's side. I am running on the Liberal ticket and there is no doubt that the Liberals will be returned to power on June 10th. For 22 years the Red Deer member has sat on the opposition side.

Opposition is necessary for good government — but it is a luxury we farmers can no longer afford. Let someone else provide the opposition for a change. As a farmer and rancher I ask for your backing, which will send an effective message to Ottawa.

LEAGUERS INVITE PARENTS TO MEETING

For the Walther League meeting of May 7, the parents were invited to attend. The evening began with a devotion, after which the film "Togetherness" was shown. The film showed the trials and blessings of family life. The film was discussed and the points brought up were that a family should sit down and together discuss large and small problems, and together pray.

It was decided to have a Fellowship evening when some students and the director of Concordia College, Edmonton will be present.

The group decided to pay the tuition for one Leaguer to attend Lutheran Volunteer Service School at Camp Keweenaw, Wabamun, Alta.

The annual Southern Alberta rally with Trochu Leaguers as hosts will be held May 20. All attending will meet to compose a song and assemble a hymn designed by one of the Leaguers.

The League will celebrate its International birthday May 26, in conjunction with the annual reunion service.

Officers elected for the coming year are: president, Alvina Jans; vice-president, Kriss; secretary, Bernice Bedas; treasurer, Werner Reinhardt; the society paper, editor, George Lumb; assistant editor, Gordon Gebers.
